MONTANA PREVAILING WAGE REQUIREMENTS

The Commissioner of the Department of Labor and Industry, in accordance with Sections 18-2-401 and 18-2-402 Montana Code Annotated, has determined the standard prevailing rate of wages for the occupations listed in this publication. The wages herein specified are controlling as to the prevailing rate of wages for the purposes of 18-2-401, et seq., Montana Code Annotated. It is required that each employer pay, as a minimum, the rate of wages including fringe benefits for health and welfare, pension contributions, vacation, training, travel allowance, and per diem, applicable to the locality in which the work is being performed, provided in the attached wage determinations.

A. Apprentices

Wage rates for apprentices registered in approved federal or state apprenticeship programs are contained in those programs. However, apprentices not registered in approved federal or state apprenticeship programs will be paid the prevailing wage rate.

B. Fringe Benefits

Section 18-2-405 of the wage and hour laws states that..."whenever the employer is not signatory to a collective bargaining agreement, those monies designated as fringe benefits shall be paid to the employee as wages." This section does not apply to that portion of the prevailing wage designated by the Montana Department of Labor and Industry as health, welfare, or pension benefits which the employer would otherwise contribute to federally approved Employee Retirement Income Security Act (ERISA) plans.

For building construction occupations, the vacation benefit amount is included in the prevailing wage rate. The vacation amount is listed under benefits for informational purposes only. Vacation can be deducted from the wage rate, after taxes, provided the employer is signatory to a collectively bargaining agreement which contains a vacation fund and the benefit is then paid into the fund. If an employer is not signatory to a collectively bargained agreement, the employer must pay the full prevailing wage amount with no deduction for vacation. Vacation benefits are not to be considered a part of the hourly rate of pay for overtime purposes unless there is a collectively bargained agreement in effect that specifies that fringe benefits are to be computed on an hours-paid basis.

The other fringe benefits (health and welfare, pension, apprenticeship training, travel, and per diem) are to be paid in addition to the prevailing wage rates.

C. Posting Notice of Prevailing Wages

Section 18-2-406, Montana Code Annotated, provides that contractors, sub-contractors, and employers who are performing work or providing services under public works contracts as provided in this part shall post in a prominent and accessible site on the project or work area, not later than the first day of work, a legible statement of all wages to be paid to the employees on such site or work area.

D. Employment Preference

Section 18-2-403, Montana Code Annotated requires contractors to give preference to the employment of bona fide Montana residents in the performance of work on public works projects.

E. Prevailing Wage Schedule

Employers are surveyed biennially to determine prevailing wage rates. This publication covers only building construction industries in the specific district mentioned herein. Heavy and highway industry rates are contained in a separate publication. Services occupations will be surveyed in alternate years and are contained in a publication dated July 1, 1993. These rates will remain in effect until superseded by a more current publication.

F. Computing Travel Benefits

Travel pay, for the purposes of public works projects, shall be determined by measuring the road miles over the shortest practical maintained route from the county courthouse of the following cities or the employee's home, whichever is closer, to the center of the job. Each city shall be considered the point of origin only for jobs within that district (as shown below):

District 1 - Kalispell

District 2 - Missoula

District 3 - Butte

District 4 - Great Falls

District 5 - Helena

District 6 - Bozeman

District 7 - Lewistown

District 8 - Billings

District 9 - Glasgow

District 10 - Miles City

G. Definition of Building Construction

For the purposes of Prevailing Wage, the Commissioner of Labor and Industry has determined that building construction occupations are defined to be those performed by a person engaged in a recognized trade or craft, or any skilled, semi-skilled, or unskilled manual labor related to the maintenance, repair, or construction of a public building or facility, and does not include engineering, superintendence, management, office, or clerical work.

H. Assistance

Inquiries about the Montana Prevailing Wage law or rates should be directed to the Department of Labor and Industry, Employment Relations Division, P.O. Box 1728, Helena, Montana, 59624, phone (406) 444-5600.
